SUMMARY

Analyst with 4+ years across consulting, lifecycle marketing, and enterprise data, finishing an M.S. in Business Analytics at UC Davis. Connects data to go-to-market: segmentation that targets the right users, dashboards leaders act on, and AI-assisted workflows that replace manual work.

EXPERIENCE

BioMeBar | GTM Analyst

Jun 2026 - Present

- Rebuilt partner prospecting from manual search into an AI agent workflow (Claude skills + Google Sheets API), screening **350+ healthcare clinics** against **ICP rules** with a **9-point QA pass** to generate **personalized message-ready leads**.
- Analyzed ad creative from **10+ competitors** alongside **impression and engagement data** from past campaigns, translating patterns into a paid acquisition roadmap for the next quarter.
- Shipped a **real-time pipeline dashboard** (Cloudflare Pages + Apps Script API) that auto-stages leads and refreshes daily worklists.

Accenture Strategy & Consulting | Business Consulting Analyst (for a Fortune 500 Healthcare Company)

Aug 2023 - Jul 2025

- Owned **SQL-based audience segmentation** for data-driven email marketing campaigns, targeting more than **100k global users** for a Fortune 500 pharmaceutical company using **Salesforce Marketing Cloud**.
- Redesigned end-to-end campaign launch workflows, cutting time-to-launch from **4 weeks to 2 weeks** by standardizing segmentation logic and automating QA pipelines.
- Built and maintained **Power BI KPI dashboards** tracking campaign conversion funnels in real time; synthesized findings into executive presentations guiding global targeting priorities.
- Documented **standardized campaign guidelines** and mentored **10+ global analysts**, reducing execution friction and boosting cross-market delivery consistency.

Ernst & Young (EY) | Technology Consulting Intern

May 2022 - Jul 2022

- Led competitive analysis of data-privacy platforms; built a comparison framework that **drove the client's vendor selection**.
- Audited compliance datasets and mapped governance workflows end-to-end, identifying automation gaps that cut manual processing.

Tata Consultancy Services (TCS) | Software Engineer (for a major UK Airport Operator)

Jul 2019 - Jul 2021

- Built and owned **enterprise B2B data integration pipelines** using **SAP PI/PO, SAP CPI, and Dell Boomi**, maintaining data integrity and **automated ETL delivery**.
- Designed production monitoring and **proactive alerting frameworks**, resolving data disruptions to achieve **zero-downtime ETL automation** across enterprise client systems.

PROJECTS

JobMatch AI | Personalized Job Search Engine

May 2026

- Built a **recommendation engine** that ranks live job postings against a candidate's profile, ingesting **50K+ listings** through Kafka and scoring them in 3 stages (HNSW vector search on ChromaDB, hard filters, **7-dimension scorer**).
- Added an **SGD personalization layer** that re-weights ranking signals from each accept or reject, sharpening results over time.

RoloScan AI | Product Analytics Lead, Agentic AI Networking App

September 2025 – May 2026

- Built **product analysis dashboards** tracking user engagement by **geographic region, device, and enterprise account affiliation**.
- Designed and analyzed **user surveys** through qualitative and quantitative engagement signals using **Python** to derive **actionable product insights**.

Marketing Budget Optimization | Statistical Analysis Project

Dec 2025

- Built statistical models using **regression and hypothesis testing in R** to isolate key sales drivers across acquisition channels, optimizing the allocation of a **\$20M e-commerce marketing budget**.

EDUCATION

M.S., Business Analytics | University of California, Davis (GPA: 3.9/4.0)

Aug 2025 - Sep 2026

MBA, Analytics & Finance | Symbiosis Institute of Digital & Telecom Management (GPA: 8.36/10)

Jun 2021 - Apr 2023

B.E., Electronics & Communication | Gujarat Technological University, VGE (GPA: 7.88/10)

Aug 2015 - Jun 2019

SKILLS

- **Data & Analytics:** SQL, Python, R, Statistical Modeling, Hypothesis Testing, A/B Testing, Machine Learning, Excel (Pivot Tables, VBA)
- **Marketing & GTM:** Salesforce Marketing Cloud (Admin & Email Specialist Certified), Audience Segmentation, Lifecycle & Reactivation Campaigns, Subject Line/Pre-Header Optimization, Push & SMS, ICP Definition
- **BI & Data Engineering:** Power BI, Tableau, Google Sheets, HTML/CSS, ETL, SAP PI/PO, CPI, Dell Boomi, Kafka, AWS Cloud Foundations
- **Product & Process:** Roadmap Prioritization, User Research, Experimental Design, Agile, Adobe Workfront, Asana, Stakeholder Reporting

HONORS & AWARDS

- UC Davis Scholarship
- Ranked 3rd / 160 & Merit Scholar, SIDTM
- Accenture Champion of the Quarter (Q1 FY24)
- On the Spot Award, TCS
